co-botic™ 1900 Pro

Smart autonomous vacuuming

Scheduled cleaning without interruptions

The co-botic 1900 Pro cleans on schedule, so vacuuming happens whenever it suits you best, even during off-hours. This keeps daytime activities uninterrupted. After cleaning, it automatically returns to its docking station to recharge. Enjoy consistent cleaning results with minimal manual effort.

Product benefits

Relieves cleaners of physical strain

Less emission of dust, bacteria & allergens

Robotic: frees up time

Technical specifications

Runtime
up to 4h
with 2x i-power 8.7
up to 5h
with 2x i-power 10.5

Suction power
3 speeds:
4, 8 and 20 KPA

Capacity
2L

Faster
Autonomous vacuuming, docking and charging to free up time for other tasks.

Cleaner
Industrial-grade suction and self-leveling brushes for consistent and excellent results.

Greener
Eco-mode delivers energy-efficient operation, while smart docking and charging minimize power use.

Safer
Reduces operator strain, while the anti-microbial dust bin with HEPA filtration cuts emissions.

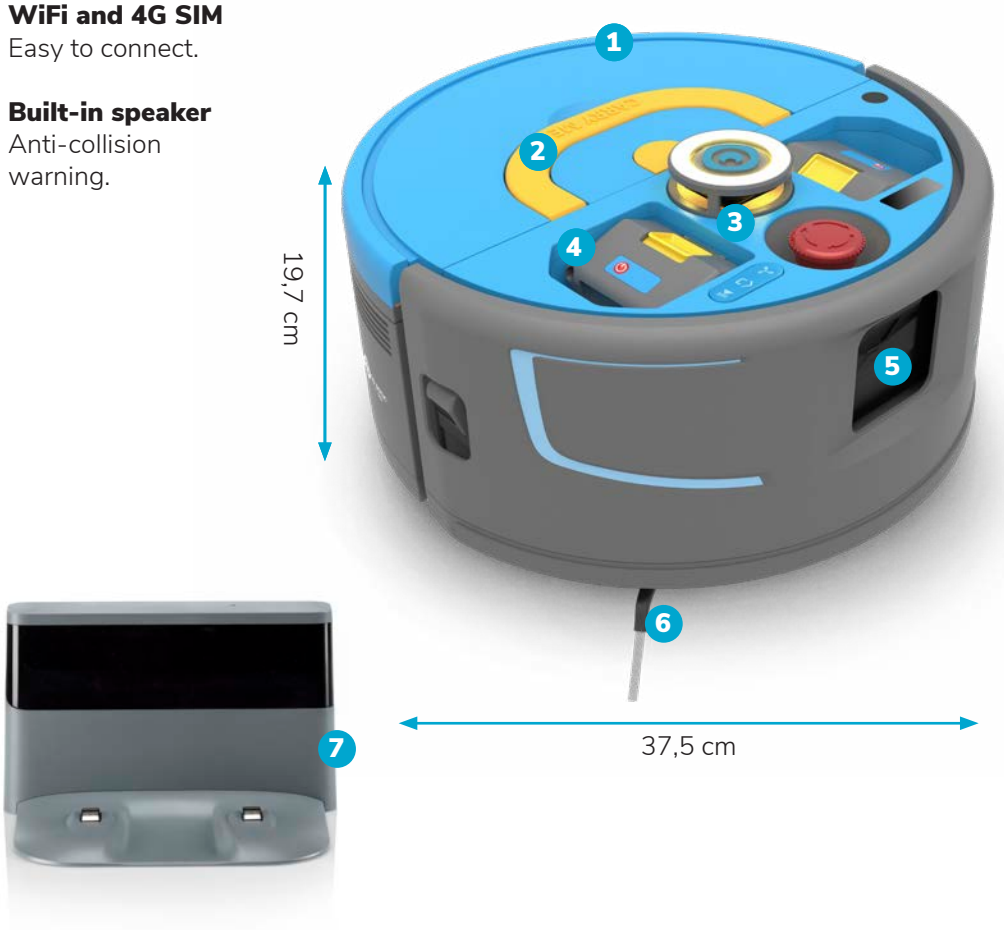
Better for everyone
Cleans on schedule and recharges hands-free, keeping routines consistent and teams focused.

Why the co-botic 1900 Pro
is your choice:

Strong suction power
For fast and thorough vacuuming.

WiFi and 4G SIM
Easy to connect.

Built-in speaker
Anti-collision warning.



1. Dust box
2L anti-mold dust bin with HEPA filter.

2. Handle
Easy to pick up and carry.

3. Laser navigation
Precise and easy map management.

4. Swappable batteries
Easy to exchange and keep working.

5. Cable detection sensor
Navigates over obstacles.

6. Rotating side brush
For edge cleaning.

7. Charging station
Home base for automatic docking and recharging.
